Low Flow Shower Head

For true shower power that won't waste water or money, consider the Oxygenics LowFlow showerhead. It might not look like much, but it's easy to install and delightful to use. The showerhead sucks in surrounding air to create an oxygenated spray that not only cuts back on water wastage, but also stimulates the skin. \$34.95 at oxygenics.com, 1-800-344-3242.
